ABOUT COMPANY

KIR is a civil engineering and wastewater specialist's company founded in 2014 by its sole director. The company primary specialises in providing bulk water solutions within the country. Therefore, building and maintain bulk water projects from pipelines to reservoirs which supply water throughout dams spreading across the country.

KIR Projects has been in business for over 9 years and has completed projects that encompass the full spectrum of civil engineering services. These include infrastructure development and rehabilitation, road construction and rehabilitation, bulk earthworks and surfacing.

Our site management teams are dynamic, skilled and have very good experience in all facets of civil engineering construction. We take pride in delivering successful projects on time, within budget and to the highest quality standards.

OUR Vision

KIR will be cemented on the grandest plinths of the engineering profession and our philosophy of precision engineering will achieve the divine proportions. We will leverage industrial and corporate partnerships in order to secure access to state of the art equipment and materials.

OUR Mission

The company is dedicated to maintaining professional standards within the Civil Engineering Industry and putting its clients first and to promote long-term relationships within the Private and Public sectors.

ENVIROMENTAL POLICY

Environmental compliance and safety is the DNA of our organization's identity and we will strive to exceed all ISO, SANS and SABS standards. Our late entry into the engineering industry has afforded us the opportunity to learn from the misfortunes of past organizations and as a result we came into the industry more equipped and scientifically informed.

SOCIAL ECONOMIC RESPONSIBILITY

KIR Projects contributes to various social responsibility projects each year which include; training of unemployed persons, assistance with constructing fields / building projects, financial assistance to previously disadvantaged persons and local community projects.

HEALTH & SAFETY

KIR Projects is committed to creating and maintaining a safe working environment and continually improving our clear and non-negotiable standards and procedures. We proactively foster a safe working environment and enhance the well-being of our employees and that of the communities within our areas of operation.

We are committed to complying with all relevant legislation including the Occupational Health and Safety Act (OHSA) 85 of 1993 and current environmental laws and regulations. We make use of an ISO accredited external auditor to ensure compliance in all areas of operation.

OUR SERVICES

Structural Engineering is a broad brush stroke in engineering artistry and KIR's engineering services cover this entire spectrum. We provide contracting services for civil structures, telecommunication structure, general building and all steel and concrete structures such as:

1 WATER

- Storage Reservoirs
- Bulk water supply
- Water distribution networks
- Pumping stations

2 ROADS & EARTHWORKS

- Construction and rehabilitation of access roads and highways
- Rehabilitation of roads
- Asphalt paving
- Bulk earthworks

3 SANITATION

- Sewerage treatment works
- Sewerage reticulation networks
- Sewerage pumping stations

4 CIVIL AND CONSTRUCTION

- General Building and Renovations
- Structural Engineering Works
- Bridges

OUR PROJECTS

Client	Project Name	Value	Start Date	End Date
Tekoa Engineers	Construction of bulk pipeline, reservoirs and reticulations Inc. Yard taps	R41 256 763.00	15/January/2015	20/March/2017
Zana Manzi Services	Completion of water treatment works and concrete structures	R3 970 202.00	29/September/2015	15/July/2016
Zana Manzi Services	Construction of complete sewage treatment at Tsolo	R4 716 322.00	29/November/2016	12/December/2017
Zana Manzi Services	Fobane Sub regional water supply scheme	R4 928 256.00	20/March/2016	19/April/2017
LNP Construction	Construction of Kwabhaca Water treatment works	R23 046 125.20	25/February/2019	25/February/2019
Water and Sanitation Services South Africa	Construction of Pumpstation Buildings and other general building work.	R2 294 328.47	06/March/2017	11/May/2018
Chris Hani District Municipality	Augmentation of water supply Middleburg pipeline, Midros township project.	R5 758 055.75	05/July/2021	28/October/2021
PK Valves CC	Construction of concrete resevoir including piping and chambers	R20 255 375.50	01/February/2021	24/February/2022
PK Valves CC	Construction of 2.5ml concrete resevoir including piping and chambers	R22 245 550.00	02/November/2020	26/November/2021

CURRENT PROJECTS

Client	Project Name	Value
Chris Hani District Municipality	Claster 6 Water backlog project: Gqaqa to Mnyolo bulk water supply scheme	R21 628 945.85
Nketoane Local Municipality	Construction of New High Lift Pump and 2ml reinforced concrete resevoir: phase 1B	R40 322 246.60
Chris Hani District Municipality	Cluster 4 Water supply backlog eradication. Kwanzola & Matafeni-B Water Supply	R2 937 286.07

MEET THE TEAM

KIR Projects employs in excess of 15 permanent staff. In support of local socio-economic upliftment, additional human resources at an annual average in excess of 50 part time staff are appointed and sourced from the local communities within which projects are located.

Mzi Letsiye

Director

The founder of the company, a true entrepreneur and leader whose primary responsibility is for creating opportunities and employment for young people and locals.

Siphelele Honest Mondli

Construction Manager

Oversees the planning design, construction, project management and closeout of our projects.

Deon Stemela

Site Foreman

A qualified and experienced Civil Engineer who's worked in various projects in the construction field

Mthokozisi Mayibuthe

Foreman

Very experienced foreman with over 7 years in the field from working in major big projects in the country.

Odwa Zangqa

Site Agent

One of our youngest engineers who's been involved in major Sanral projects throughout his career.

Johannes Madonsela

OHS

Ensures that there's a safe working environment for all employees and parties involved in the projects.
